fax: 772-467-1602
email: ewidder@teamorca.org

COSEE Role:

Principal Investigator

Primary COSEE Affiliation:

Florida

Background with Respect to Ocean Sciences Education:

Ocean Research & Conservation Association (ORCA) is led by Dr. Edith Widder, an internationally recognized scientist and 2006 MacArthur Fellow. In addition, to her work on bioluminescent organisms and the application of technology to understanding ocean science, Dr. Widder epitomizes the role scientists can play in creating an engaging scientific learning community.
